Killick Aerospace Announces Global Distribution Agreement with Honeywell for Nitrogen Generation System (NGS) Oxygen Sensors

DUBLIN – [December 17, 2020] – Killick Aerospace Group, by its subsidiary Killick Aerospace, is pleased to announce the signing of an **exclusive** parts distribution agreement with Honeywell for NGS Oxygen Sensors for the Boeing 737NG, 737MAX, 777, and BBJ family of aircraft. Additionally, Killick Aerospace has been selected as authorized non-exclusive distributor of the other components of the Honeywell Nitrogen Generation System for these platforms.

“We are delighted to have been selected by Honeywell for this program and look forward to supporting our existing customers and additional 737, 777, and BBJ operators with this suite of components,” said Steve Donegan, Managing Director of Killick Aerospace.

“Strategically this is an important step in developing our distribution portfolio by using the Killick Aerospace Group’s infrastructure,” said Stefan O’Hare, Vice President of Business Development for the Killick Aerospace Group. “With our product expertise and global customer base we feel well positioned to further grow our product portfolio in the coming months while maintaining an OEM centric approach with complimentary product lines.”

Killick will be the exclusive distributor of this component to customers worldwide (excluding China) and will support this program from distribution centers in the USA, Ireland, and Singapore.

About Killick Aerospace Group

Founded in 2006, the Killick Aerospace Group is a leading provider of Commercial and Business Aircraft engine solutions, aircraft parts and rotables, and engine sales and leasing. With headquarters in Dallas, Texas, it consists of Killick Aerospace, Turbine Engine Specialists (TES), and Avistox.

Killick Aerospace, with headquarters in Dublin, Ireland, provides commercial aircraft and engine solutions supporting spare parts requirements for Airbus and Boeing programs. Additionally, Killick Aerospace is the exclusive distributor for the Bombardier Challenger 600/601 and Learjet 60/60XR programs. It has parts distribution centers in North America, Europe, and Asia Pacific.

TES, headquartered in Fort Worth, Texas, is authorized by Honeywell and General Electric. TES has expert crews ready to travel anywhere in the world to service engine and APUs for scheduled or unscheduled maintenance, including AOG rapid response.

AviStox, with headquarters in Dallas, Texas, maintains a large inventory of aircraft parts from suppliers such as Honeywell, Hamilton-Sundstrand, and other leading aerospace original equipment manufacturers.
